EDITION — N°4

INTRODUCTION

QUALITY

Since 1984 Devino has been supplying the jewellery industry with the finest quality pearls. Devino's objective remains to focus on offering cultured pearls of the purest quality without any artificial transformation. We assure you that the beauty and quality will remain unaltered over time given proper use and care.

PEARL VARIETY

The major types are Akoya, South Sea, Tahitian and Keshi Pearls. All types of cultured pearls are strictly controlled at Devino: the quality of nacre, the surface condition, and the lustre. As pearls come in a wide range of colours, from black, grey brown, blue to golden, cream gold and white with different overtones, it requires expertise to compose strands and pairs of matching colours.

Devino offers the perfect choice of pearls in uniform colours or in colour combinations.

We offer them in loose lots, pairs, singles, strands and mounted in finished Pearl Jewellery.

PEARL JEWELLERY

We have photographed our most popular jewellery mounts for this catalogue. Each item can be mounted with any of our pearls (Akoya, South Sea, Tahitian) in any size required, subject to availability. Pictures will vary from actual items depending on the pearls used.

SUPPORT

We have designed this catalogue as a guide and sales support to help you see samples of our range. Our pearl professionals are happy to provide you with advice and information to help promote and sell pearls within your store.

We are happy to assist you in making the right choice.

CULTURED PEARL VARIETIES

AKOYA PEARLS
SOUTH SEA PEARLS
TAHITIAN PEARLS

Each pearl harvested is as individual as a fingerprint,
making it essential to keep high quality standards.

Having a life time experience in the pearl industry,
Devino offers and keeps the strictest standards.

DEVINO

SOUTH SEA CULTURED PEARLS

DETAILS

ORIGIN: Australia, Indonesia, Philippines, Myanmar

SIZE: 8 - 19mm (average 9 - 14mm)

COLOUR: The white-lipped oyster species yield white pearls with a rose, silver, blue, grey or green overtone while the yellow-lipped species yield pearls of cream, yellow or golden.

SHAPES: round, semi-round, oval, button, baroque

LOOSE PEARLS

Devino has a large selection of loose pearls in single pieces, matching pairs or in lots. Most popular sizes for earrings are 9 - 12mm, for pendants from 10 - 14mm. We specialize in pair matching (size, shape and colour). Most pearls have surface irregularities showing the traces of nature. Perfectly clean pearls are rare. Devino offers only pearls with minimal blemishes.

STRANDS

Devino offers a great assortment of strands in diverse shapes, colours and sizes from the classic necklace to the fashion orientated designs from 'cocktail' to 'wave' creations, in uniform or multi-colour, from the standard choker lengths to princess, matinee, opera or even longer fantasy lengths. As no two pearls share exactly the same nuance, it requires expertise to compose strands of matching colours. High Quality matching is guaranteed.

KESHI

South Sea Keshi pearls are of irregular shape as they do not contain a round shell bead and are consist entirely of nacre. The organic shapes and stunning beauty of these pearls make a rare and unique jewel for the very lover of nature. Limited availability.

TAHITIAN CULTURED PEARLS

DETAILS

ORIGIN: Tahiti, French Polynesia, Fiji, Cook Island

SIZE: 8 - 17mm (average 9 - 12mm)

COLOUR: A rich and complex colour palette – from pitch black to dark grey, bronze, light grey, green, yellow to white with intriguing overtones of red, blue and purple.

SHAPES: round, semi-round, drop, button, baroque, circle

LOOSE PEARLS

We carry a large selection of loose Tahitian pearls for Jewellery making. Most popular sizes for ear-rings are from 9 - 11mm, for pendants from 10 - 13mm.

Pair matching is especially tricky with Tahitian pearls because of the very difference in colour spectrum in each pearl, often noticeable with a different within the same pearls.

STRANDS

We make up strands in all shapes, diverse sizes, be it in elegant classical designs for the traditional look or for the real connoisseur to the trendy and fashionable styles, in refreshing colours and extra-long necklaces. Ask for our 'cocktail', 'wave' and 'viva' creations. Each necklace is different and unique, a must for the fashion orientated lover.

KESHI

This precious and valuable by-product of the Tahitian harvest is especially suitable for innovative and fashionable design Jewellery. Devino offers a variety of Keshi necklaces and bracelets. Ask us for details.

AKOYA CULTURED PEARLS

DETAILS

ORIGIN: Japan (small productions in Korea and Vietnam)

SIZE: 2 - 9.5mm (average 6 - 9mm)

COLOUR: white, white silver, white rose, greenish, cream, yellow (rare: gold, natural blue)

SHAPES: round, semi-round, semi-baroque, baroque, very rarely drop.

NACRE THICKNESS: 0.4 - 0.5mm

QUALITY MATCHING: No matter how good the quality of each pearl may be, if matching is poor, the value of the merchandise decreases dramatically. There are very strict procedures for quality matching of Akoya pearls.

STRANDS

Strands are regularly available in sizes of 6 - 6.5mm, 6.5 - 7mm etc. up to 9 - 9.5mm (smaller sizes upon request). To simplify your choice of Akoya pearl strands we have created 4 quality choices each with highly lustrous and healthy coated pearls.

GEM QUALITY: round, best lustre, best coating, smooth surface, perfectly clean (rare and expensive)

A1: round, white or with rose overtone, clean or very small blemish, excellent lustre

A2: round or near round, white or with rose overtone, slight spots, excellent lustre

AC: near round or off round, white or with rose overtone, blemishes, excellent lustre

All our graduated strands come in A1 quality only.

Our team will be happy to consult you for your proper needs.

LOOSE PEARLS

Our speciality is perfectly matched loose Japanese Akoya Pearls for any type of jewellery. The most common sizes are from 6 - 6.5mm to 8.5 - 9mm in A1 quality (round, white with rose overtone, spot-free, excellent lustre).

Please enquire for our price-list.

6.5 - 7mm

7 - 7.5mm

7.5 - 8mm

8 - 8.5mm

8.5 - 9mm

9 - 9.5mm

KESHI

Akoya Keshi, originally called 'seed pearls', are natural by-products from the Akoya productions. A few strands of round akoya Keshi pearls with matching colour may take 10 years to collect.

They come in sizes from 0.8 to 3mm. We carry a variety of Akoya Keshi strands and creations in our stock.

PEARL JEWELLERY

NECKLACE LENGTHS

.....

PEARL CHOKER 14 - 16 inches (35 - 40cm)

This necklace lies in the hollow of the throat or just below it.

.....

PRINCESS NECKLACE 16 - 20 inches (40 - 50cm)

This is the most common length for pearl necklaces.

.....

MATINEE NECKLACE 20 - 26 inches (50 - 60cm)

The extra length allows for the necklace to be strung with two clasps so it can be worn as a bracelet and shorter necklace as well.

.....

OPERA NECKLACE 26 - 36 inches (66 - 91cm)

This can be worn as a single strand or doubled.

.....
